A SEVERE STORM

RAGED IN NEWFOUNDLAND

Fishing Operations are at an end and Casualties will be small.

St. Johns, Newfoundland, November 20.—The Labrador mailboat reports that the winter is severe in that region. All fishing operations are ended, and the fishermen have left the coast. The land is covered from three to six feet of snow, and an ice pack is driving south from Maffin's Bay.

A fierce storm swept the Newfoundland coast Friday night, doing much damage at the fishing stations. Owing to the fact that most of the vessels have ceased fishing, the casualties are not likely to be large.

VEGREVILLE

The Rev. W. A. Rae, who has been Presbyterian Missionary in this vicinity for the past two years is leaving the ministry and is taking up the study of law. He has made arrangements with an advocate to open an office here in the spring.

A Christmas Tree Entertainment is to be held in the Vegreville School House on the evening of December 16th at 7 o'clock. All are welcome and there will be no reserved seats.

A meeting has been called to meet at the residence of Lloyd Schenckeler to form a company to acquire and improve land or a park on the shore of Sick Man Lake. A pavilion will be built and boats purchased and a picnic ground laid out.

Rev. Bradley, Methodist Missionary at Birch Lake, spent two days in our midst visiting friends.

Mrs. Argue, wife of Rev. Mr. Argue has spent two weeks visiting at Warwick and Highfield among friends.

Three of the farmers in our immediate vicinity have put a dam across the Wasaway creek and in so doing have secured available water for cattle during the winter.

Mr. St. Hilaire, proprietor of the Grand Central hotel, has quite recently had two commodious brick chimneys built on his hotel, thus lessening to a very great degree danger from fire. Mr. E. L. Poulin and Mr. Chas. Spence, two of our merchants, have also had a chimney built upon each of their stores. It makes no difference whether the railroad passes our way or not signs of western progress and advancement are to be seen on every hand.

Mr. Jones, our enterprising barber and harness maker has erected a nice new barbershop beside the restaurant and now you can have "a shave while you wait" or your shoes soled while you wait.

Rev. Mr. R. E. returned from Edmonton this week. Owing to the ill health of his wife, Mr. Rae had to send her East with the two children and it is to be hoped that when she returns she will be in greatly improved health.

Mr. E. L. Poulin is adding a large granary to the north side of his store. We are informed that he is also going to build a large store room on the south side of his store and if he does he will have a very handy emporium indeed.

Mr. Wm. Clement returned from Lloydsminister this week where he was for some time transacting business with the C. N. R. graders.

About 15 or 20 teams are yet working on the grade four miles north of Vegreville. Excellent work and progress have been made on the grading work from Liver's to Trimble's.

ranch and the contractors deserve praise for the expeditiousness of their summer's operations. Some men and teams quit last Saturday to return to Battleford while this week will see the finish of all grading work in this vicinity for the present reason. The grading work, so far as we have seen it, is a model of neatness and excellent workmanship.

POPLAR LAKE

A meeting of farmers will be held in Poplar Lake school house on Tuesday November 22, at 7:30 p.m., to select a representative for nomination as candidate for the coming Territorial election. Also to discuss the grain question. A large attendance of farmers from Twp. Lakes, N.W.M., Sunnyside, Coronation, Horse Hills, Belmont and Poplar Lake is urgently requested.

Calgary Tailors On Strike

Albertan:

The tailors of Calgary are on strike. About twenty-five of them have decided that they do not get enough pay, and accordingly have taken the action which they have. The tailors ask for 28 cents an hour. The tailoresses ask for 20 cents an hour. The strikers say that under recent conditions they do not make more than \$2.00 a day.

Seventy two ballots were returned as spoiled and forty-five as rejected. A spoiled ballot is one that the voter has marked, or otherwise treated so that it cannot be properly

used, and has returned it to the deputy returning officer in exchange for a ballot which he uses. An account is kept of the spoiled ballots, so that the returning officer may account to the clerk of the crown in chancery for every ballot paper which has been sent to him.

The rejected ballots are such ballots as the deputy returning officer upon making the count, decides to have been improperly marked, and therefore does not include in the count.

The spoiled ballots are enclosed and sealed in one envelope, and the rejected ballots in another, and both envelopes are enclosed in the ballot box with the ballots and the official statement of the vote which is also placed in a sealed envelope. The returning officer, upon declaration day only, opens the envelope containing the deputy returning officer's statement and makes his declaration in accordance with a count of the figures thus given. Only in case a recount is demanded before a judge is the envelope containing the rejected ballots opened and the rejected ballots scrutinized and possibly counted.

According to this declaration 3,103 voters presented themselves at the polls; the votes of 5,061 of whom were counted. This count is final unless a recount is demanded or the election contested.

Instruction in Grain Judging

Thos. Daly, of Clover Bar, has the following letter in the Farmers' Advocate:

In your issue of October 26, under the heading, "The local show and the Agricultural Society," you ask your readers to let in the light by giving their opinion of the agricultural shows of the country. I think you are to be congratulated on offering this opportunity, because I notice that in many agricultural papers the principal topic is stock, and how to improve them. This, in some respects, is correct, because the stockman's eye should be opened to business but he has been receiving considerable assistance in the way of judging schools and other means of education. But what of the small grain grower? Has he had any such privileges to know between the good the bad grain with which he is dealing? I think that lessons on seed grain would be helpful to many of the young farmers. It seems to me that it ought to be possible to know that seed is sound without testing it.

Referring more particularly to local shows, I would like to draw attention to the general neglect of the grain exhibit. Go if you will to any one of our local shows and watch the crowd, and you will see that the majority of people pass by the grain exhibit without giving it any particular attention, and yet grain is our chief support in life. One reason, perhaps, why our grain exhibits are not better, is because we have so many summer shows. At them must be shown grain grown the previous year. At the fall show the man who can come out with honors on his grain sown that year, has something that helps him to sell his crop.

At any rate, there should be more attention paid to enlightening farmers on how to judge their seed.

Calgary Exhibition

Albertan:

At the annual meeting of the exhibition company, which was held in the offices of the secretary on Wednesday, it was recommended by the shareholders that the races in future be confined to flat races, and hurdle races, and that the harness races be declared off. Some of the members were in favor of eliminating horse racing entirely, but that was looked upon as too severe.

The sharps were also recommended to the board that the exhibition be held not later than July 18.

ONE of the advantages of the Cuban tobacco is that it is almost entirely cured by nature.

The climate is so hot that the tobacco sweats naturally—the leaf is ripened uniformly and the subsequent process of curing favorably promoted.

With the expert attention the leaf receives in Cuba it is pretty thoroughly cured and preserved—and its fragrant aroma developed by having been slowly fermented. I allow it to remain in my warehouse from 2 to 3 years until it has sufficiently aged and has that mellowness that age alone can give. It takes a lot of study and experience to know when Havana tobacco is just right. Pharaoh tobacco is always just right.

ICE IN THE RIVER

Ice is running in the river this morning at Edmonton, Fort Saskatchewan, Pakan, Onion Lake and Battleford. The ice is thin and crossing is being made at these points in small boats. Ice has formed along the shores and wherever there is slack water at Edmonton. Yesterday there were a number of boys skating at the head of the Fraser & Co.'s mill. No thick ice has yet come down the river showing that the weather to the west is still mild.

The sharp frost of Friday night no doubt put a stop to plowing in this district, although the milder weather and slight rain of yesterday may have lengthened the plowing season a little. Pansies in the gardens are rather the worse of Friday night's frost, but some stocks still show full bloom. Today November 21st, is clear, bright, calm and warm.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting a section 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, or 160 acres more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the same of such patent countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres of substantial woodland.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his title cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry and from the office in charge, free of expense, advice and assistance in securing and culturing them. Full information regarding the land timber, coal and mineral laws, and all respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,
Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

NEARING END AT PORT ARTHUR.

INCREASING ACTIVITY ON THE SHAKHE

All Russia Stirred by Seemstvo Convention Recommendations. The Hull Incident must be Settled Without Regard to Persons or Nationalities.

Tokio, November 20.—It is reported that the Japanese after successfully mining, occupied the centre scarp on Yungeh mountain last night.

Chefoo, November 20.—The local Russian consul received a letter from Port Arthur describing the use by the Japanese of a peculiar mine. It looks like a long sausages. The Japs throw it into the trenches, and it bursts, giving off an odor so foul that if not thrown out immediately the soldiers faint.

Chefoo, November 20.—Another attack is expected on Etsu mountain, on November 24, according to the Chinese who left Dalny yesterday. The Chinese report that reinforcements for the Japanese continue to arrive at the rate of one thousand daily. They saw fifty guns brought in, which the Japs say that they captured; also one hundred and fifty men and three officers.

Tokio, November 20.—Increasing activity prevails along the Shakhe river indicates another great battle. Russian feints intended to draw the Japanese attack have always been repulsed.

The army headquarters received the following report from General Oyama dated November 18: "At dawn, a day earlier than the date of the detachment of the army of the enemy made an attack near Haing

Tung. They were repulsed. The Russians have been bombarding in the vicinity of the Shakhe river. They did no damage."

Tokio, November 20.—During the bombardment this afternoon a shell from the Japanese naval gun exploded the Russian magazine near the arsenals.

St. Petersburg, November 20.—The Seemstvo representatives met today and adopted the remainder of the memorial, adding several articles providing for practical co-operation in Red Cross work, and greater school facilities. The members of the Seemstvo who are influential and not at all revolutionary in character, recommended that the people have a voice in the government. This has caused the greatest excitement.

London, November 20.—A special despatch from Shanghai says that the steamer Tianshing from Chefoo torpedo boats escaped. The Japs stopped two; the fate of the third not being known.

St. Petersburg, November 20.—The ratification of the Anglo-Russian Dogger Bank convention will be exchanged here between Foreign Minister Lansdorff and Ambassador Hardinge. The convention states clearly that the commission has to take the task of locating the blame irrespective of persons and nationalities.

CHURCH SERVICES

The services in the Presbyterian church yesterday were taken by the Rev. D. G. McQueen. At the evening service Mr. Jackson Hanby sang a very much appreciated solo.

Rev. C. H. Hartie conducted both services in the College avenue Methodist church. In the morning he spoke on the subject, "The Wise Men of the Old Testament," continuing his series of sermons on "How to Make the Bible More Interesting." In the evening his subject was "A Great Picture as a Life Teacher."

In the Kinistino avenue Methodist church the morning service was taken by Dr. Jamieon and the evening service by Rev. F. W. Cox.

Rev. W. George, of Strathcona, conducted the morning service in All

Saints church yesterday. The evening service was taken by Rev. H. A. Gray.

Rev. A. M. McDonald conducted both services in the Baptist church yesterday. In the evening he spoke from the subject "Our Own Community."

The usual services were held in St. Joachim's church. The sermon at the eight o'clock mass was in French. Rev. Father Philipot, O. M. I., officiated at High Mass. The subject of the evening sermon was "The Attitude of the Church Towards the Secret Societies."

Extension of Time Granted

Wetask'win Post.

There were two special meetings of the town council held during the past week, the first of which took place on Thursday afternoon as a result of the visit of Mr. H. W. Dingman with whom the town entered into a provisional agreement for a franchise to bore for natural gas and oil in February last. Mr. Dingman is the promoter and managing director of the North-West Gas and Oil Co., at present holding and operating a similar franchise in Edmonton. He wished to secure some concessions from the council here in the shape of an extension of time during which he or his company are to commence active operations in Wetask'win, for a further period of six months—that is early in May. On the motion of Councillor Finch, seconded by Councillor Swoboda, it was unanimously agreed to grant Mr. Dingman's request for a further period of an extension of six months, to commence work here.

We are abreast of the times. We are showing it too. A full page in our New Catalogue is given up to it and repeat orders have already been placed for some of the more favorite lines.

HOCKEY NOTES

The rink management is preparing the rink for the skating and hockey season which will soon be with us. Efforts are being made to have ice at the earliest opportunity. Considerable new material has arrived in the city. Mr. Fyle, a brother-in-law of Dr. Forin, has accepted a position with the Edmonton Clothing Company. Mr. Fife was a member of last year's hockey team at Nelson, B.C. and is said to be a strong man. K. Vankleek Hill will in all probability remain in the city. These men undoubtedly strongly increase the effectiveness of the Edmonton seven.

The Lacombe hockey club met last week to transact the usual business and to appoint officers for the coming season.

The meeting was unanimous for the organization of a hockey club, and the following officers were elected:

Hon. President, P. Talbot, M.P.
Vice-President, N. Morrison
Sec.-Treas., R. J. Scott
Manager, J. D. Skinner
Committee, M. J. MacLeod, N. E. Carruthers, H. M. Trimble, A. M. Campbell, and C. L. Durie.

Fort Saskatchewan Reporter: It is rumored that Mr. Robert Whitson and Charles Flintoff intend opening a skating rink in town this winter. We hope that they will go through with it, as a skating rink will be greatly appreciated by our townspeople. (Citizens interested in that resin game of broom and stane" could now be called together and endeavor to get a club formed. A good rink could easily be made on the river that would serve both purposes.

A Territorial Election

Regina Standard:

There is at the present moment a strong probability that a general election for the Territories will be sprung upon the people within the next three or four weeks.

Press comments from all parts of the North-West show that a strong current of public feeling is setting in against Premier Haultain in consequence of his having delivered himself into the hands of a band of rabid partisans, who seem to dictate his course, and who have thereby unfitted him for the responsible position which he holds in behalf of the whole people.

Mr. Haultain would be blind indeed if he did not detect on the political horizon the plain indications of the gathering storm. But he knows also that there is no organized opposition to his government either in the Assembly or out of it. It has been broadly hinted that his candidates in the bye-elections will be opposed, but will the bye-elections ever take place?

In the spring of 1902 Mr. Haultain dissolved the Assembly, and brought on an election at two weeks' notice, whilst the farmers were busy with their sowing operations. His opportunity for another snap verdict is as good now as it was then, and his need of it is even greater. The seven vacancies, and the muddle he has made of the provincial autonomy question will furnish him a pretext.

A territorial convention, representative of all who resent Mr. Haultain's change of attitude, and who oppose the sacrifice of the North-West interests on the altar of Federal partizanship should be convened immediately to discuss the

situation, and take such action as may be deemed advisable. Meanwhile, candidates pledged to the best interests of the Territories, should be in readiness in every legislative constituency.

The public schools open to-day at 9:30, the opening hour for the winter. The high school opens at 9 o'clock.

J. K. Macdonald, acting Deputy Attorney General, went south this morning to Calgary where proceedings are to be taken to-morrow for the forfeiture of lands for non-payment of territorial taxes.

The store formerly occupied by G. F. and J. Gal's wholesale warehouse has been thoroughly renovated during the past couple weeks. It is being refitted and will be occupied by the Edmonton Clothing Company.

The Board of License Commissioners were to have sat in Edmonton this morning to consider the granting of a license to the Victoria Boarding House, Strathcona. Jas. Graham, of Fort Saskatchewan, one of the commissioners, was unable to be present this morning and the sittings were adjourned until this afternoon.

The C. P. R. are issuing excursion tickets to Vancouver and Victoria, leaving Dec. 1st and 2nd, Dec. 15th and 16th and Jan. 5th and 6th. The tickets are issued at single fare and are good for three months. The trip to the coast or back must be made in five days and the return trip is to be over the same line as the out trip.

The committee in charge of Y. M. C. A. organization in Edmonton has secured Mr. Geo. Irving for the position of secretary. Mr. Irving has been prominently associated with Y. M. C. A. work in Montreal and other eastern points during the past and in his coming to Edmonton is characterized by the same degree of success which has attended his efforts elsewhere. We shall soon have a flourishing association established.

S. Chivas-Wilson, clerk in charge of the Local Improvement Branch of the Public Works Department, has had a busy week clearing up arrears of local improvement and school taxes which were paid by the law firms and loan companies in order to prevent the forfeiture of lands. Mr. Wilson left this morning for Calgary accompanied by J. K. Macdonald and both will attend the Court at Calgary to-morrow for the same purpose.

The Toronto Mail of a recent issue contains an unappreciative article on Edmonton as a city. The article is cleverly written and should be by one who has had intimate personal knowledge of the place as it was and is it. It is a pity that the article character of the article should be marred by the following allusion: "Above all, there are the old Rockies, with their venerable white heads." Of course there are the "venerable old Rockies," but they are not in sight of Edmon by something over 100 miles and are actually about 200 miles distant at the nearest point.

The Hewett Carnival Company magician, appears at Robertson Hall this evening. The Regina Standard has the following to say regarding the performance in that city: "The great Hewett Company appeared at the City Hall last night to a crowded house, every seat being sold at 8 o'clock. The illusion 'Hoo' is certainly surpassing, as well as the 'Louisiana Sun Flower,' or better known as the 'Kolossal Trick.' The magic by now has proved that he is an adept in his line. To E. W. Mr. Hewett's little daughter, who was seen in the larger illusions."
